Animal Care and Management

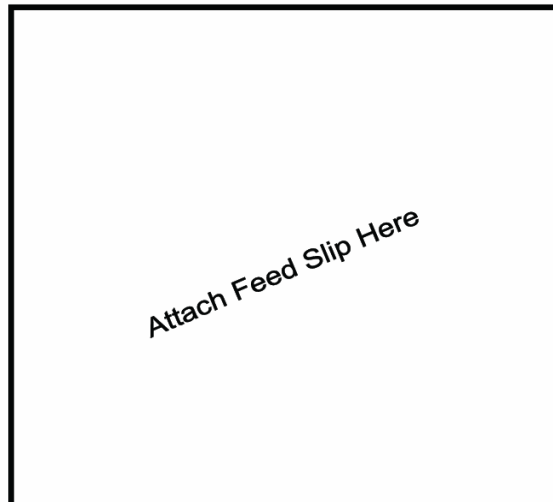

Your project requires regular care and management. List the things necessary to take care of your project animal(s). Include the following: • Feeding and watering practices • Health practices and medicines • General Management (cleaning living area, etc.)

Daily – Things done once or twice a day
Weekly – Things done once or twice a week
Monthly – Things done once or twice a month
Yearly – things done one time or occasionally throughout the year

Feeding

What protein feed do you feed? _____

Do you feed anything besides pellets? If so, what do you feed and why? _____

Standard of Perfection

Complete the Standard of Perfection using any ONE of your current project animal(s).
